

Talk to Your Pharmacist Today About:

World Hepatitis Day July 28th

THAT'S MY
PHARMACISTSM

DID YOU KNOW?

- 1 out of every 20 Americans has been infected with the Hepatitis B virus
- 3.2 million Americans have long-term Hepatitis C virus infection
- Hepatitis is inflammation of the liver, but if it goes untreated, it may cause permanent liver damage and death
- Hepatitis can be caused by alcohol and drug abuse
- Hepatitis viruses are spread through contact with infected bodily fluids
- There is a vaccine series for children to help prevent Hepatitis B infections

WHAT CAN YOU DO?

Talk to your pharmacist if you have any questions about hepatitis vaccines, medications and prevention
