

# THAT'S MY PHARMACIST<sup>SM</sup>

## 10 REASONS TO TALK TO YOUR PHARMACIST

1. You are wondering if there is anything that you should not eat or drink with a new medication.
2. You took a new medication, and now you don't feel right.
3. You are unsure of how to use your inhaler.
4. You are wondering where you get a flu shot, and if there are any other shots that you need.
5. You took a pill, but it doesn't seem to be working, or you missed a dose and are wondering what to do.
6. You are unsure of where to store your medications.
7. You are not sure why you are taking a medication.
8. You are wondering if you can stop taking a medication because it is no longer working.
9. You want to know how to get rid of old medications.
10. You are ready to quit smoking and are wondering what you can do to quit.
