

MPA ONLINE STORE: CONTINUING EDUCATION

Pharmacy Technician Continuing Education Workbook

Directions to Receive Credit

Participants must complete a program evaluation form, as well as complete and pass a posttest (contained in the workbook) with a score of 70 percent or greater to receive PCE credit. Partial credit will not be awarded. Individuals meeting the participation criteria will receive a statement of credit for up to 7.25 contact hours in the mail approximately six weeks after receipt of evaluations and posttests answers.

NOTE: Due to new guidelines established by the Accreditation Council for Pharmacy Education (ACPE), certain changes must be made to the process by which MPA accredits continuing education for pharmacy technicians. MPA may choose to designate programs or home study articles as PTCE-accredited, rather than ACPE-accredited. However, even though MPA may accredit a program for technicians, it is the technician's responsibility to determine whether the subject matter is acceptable to the Pharmacy Technician Certification Board (PTCB) for recertification. Programs designated by PTCB to be appropriate for technicians pertain to the following topics: medication distribution and inventory control systems, pharmacy administration and management, calculations, programs specific to pharmacy technicians, interpersonal skills, organizational skills, pharmacy law and pharmacology/drug therapy. Programs relating to functions outside the scope of practice for pharmacy technicians will not be accepted by PTCB.

Michigan Pharmacists Association is an approved provider of Pharmacy Technician Continuing Education (PTCE) continuing pharmacy education. PTCE Program #112-000-11-97-H04-T; 7.25 contact hours; initial release date: 2/24/11, expiration date: 2/24/14. Knowledge-type activity.

Fraud, Waste and Abuse Program

Objectives

At the end of this presentation, participants should be able to:

- explain the fraud, waste and abuse training requirements for pharmacy providers in Medicare Part D.
- describe what pharmacy training should address to meet the Centers for Medicare and Medicaid Services (CMS) requirements.
- identify the penalties for violations of fraud, waste and abuse.
- provide pharmacy providers with common examples of fraud, waste and abuse.

Presenter

Deborah A. Sopo, R.Ph., MBA, pharmacy project and development manager, HealthPlus of Michigan, South Lyon, Mich.

[Purchase the CE presentation from MPA's Online Store](#) and view, and then complete the Fraud, Waste and Abuse posttest and evaluation for [pharmacists](#) or [pharmacy technicians](#).

This program has been approved for 1.3 hours of continuing education credit for pharmacists. The passing score for each test is 70 percent. Upon successful completion of the test, MPA will mail you a continuing education statement of credit. A failed test may be retaken only once without additional cost within 30 days upon notification of a failing score. There are no refunds for failed tests.

NOTE: Due to new guidelines established by the Accreditation Council for Pharmacy Education (ACPE), certain changes must be made to the process by which MPA accredits continuing education for pharmacy technicians. MPA may choose to designate programs or home study articles as PTCE-accredited, rather than ACPE-accredited. However, even though MPA may accredit a program for technicians, it is the technician's responsibility to determine whether the subject matter is acceptable to the Pharmacy Technician Certification Board (PTCB) for recertification. Programs relating to functions outside the scope of practice for pharmacy technicians will not be accepted by PTCB.

Michigan Pharmacists Association is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing pharmacy education. ACPE Program #112-000-10-101-H03-P, initial release date: 2/26/10, expiration date: 2/26/13. Knowledge-type activity

Michigan Pharmacists Association is an approved provider of Pharmacy Technician Continuing Education (PTCE) continuing pharmacy education. PTCE Program #112-000-10-851-H03-T; initial release date: 2/26/10, expiration date: 2/26/13. Knowledge-type activity.

Well Street Care Management: Road to Wellness, An MTM Resource Manual

Objectives

At the end of this home study, participants should be able to:

- identify the key components of a medication therapy management service
- determine the key elements of a medication action plan
- describe a systematic approach to identifying drug therapy problems
- describe the documentation requirements involved in the resolution of a drug therapy problem
- identify questions to ask patients during the patient assessment process
- identify documentation standards to be followed by pharmacy practitioners
- identify communication tools that will aid the practitioners in conducting a patient encounter

Directions to Receive Credit

Credits will be awarded for successful completion and evaluation of the educational modules and self-study materials contained in the manual. The manual can be purchased from the [MPA Online Store](#) or the [manual order form](#).
