

SIGN-UP FORM

Please consider adding your voice and efforts to MPA's
Pharmacy Advocacy Response Team (PART),
and do your **PART** to advance pharmacy in Michigan and beyond!

The mission of **PART** is to increase the advocacy efforts of pharmacy professionals across the state, keeping you and your legislator up-to-date on issues that impact pharmacy practice in Michigan.

Our members are concerned citizens, community leaders and the experts that legislators turn to when they need background information on pharmacy-related issues. You can be a **PART** of a growing number of pharmacy professionals from all practice settings who recognize the value of being directly involved in advocating for the profession. MPA will make the necessary introductions, equip you with information and resources, and schedule appointments, legislative events or education opportunities. When there is an issue that pertains to your practice setting, we will let you know!

So, what will **PART** members get

- P**articipate. Each one of us has a responsibility to get involved and make a difference. MPA will provide you with opportunities to get involved on a local level!
- A**dvocate. Don't be silent and let others define your profession. By getting involved you have the opportunity to make your voice heard. Stand up for what you believe in as a Michigan pharmacist!
- R**espect. The best health policies cultivate respectful cooperation among allied health professions. You can be an important part of giving and receiving the respect deserved by all health care providers!
- T**each. There are misconceptions about the pharmacy profession. Advocacy provides an education opportunity. You are able to inform your legislator about the important work done in your practice setting every day!

Sign up and do **your PART** for your profession!

Larry Wagenknecht
Chief Executive Officer
